# PHONE GENERATOR

---

FEBRUARY 20, 2020

*To view user guide click on help.*

*To generate phone numbers click on generate.*

When you click on generate fill gaps with information about your contacts you want to generate then click on generate.

Hint. you can't generate more than 1000 contact at the same time.

If you want to back to settings (previous frame) click on to back.

Enter Country name	<input type="text" value="Syria"/>
Enter Country Code	<input type="text" value="00963"/>
Enter Start Of the Phone	<input type="text" value="9"/>
Enter the Length of Phone Numbers	<input type="text" value="8"/>
Enter the Number Of Phone Numbers you Want to Generate	<input type="text" value="100"/>
<div>Generate</div> <div>toback</div>	

When you click on generate you will see this frame bellow, which contains all contacts you generate.

To export these contacts, click on export contact.

If you want to back to generate (previous frame) click on to back

Phone Number	
0096390000000	
0096390000001	
0096390000002	
0096390000003	
0096390000004	
0096390000005	
0096390000006	
0096390000007	
0096390000008	
0096390000009
